

## REGT1 Training & Assessment

---

This course covers installation and commissioning of medium pressure regulators.

|                            |                 |
|----------------------------|-----------------|
| <b>Duration:</b>           | 1 Day           |
| <b>Course Space:</b>       | 6 - 12 Learners |
| <b>Method of Delivery:</b> | Trainer led     |

|                         |   |
|-------------------------|---|
| <b>Who is this for?</b> | <ul style="list-style-type: none"><li>• Qualified meter installers intending to work on meter installations fed with pressures &gt;75 mbar to 2 bar.</li><li>• Candidates must hold a current certificate of competence in Core Domestic Gas Safety before they can undertake the REGT1 assessment.</li></ul> |
|-------------------------|---|

### Course Objectives:

- |  |  |
|--|--|
| <ul style="list-style-type: none"><li>• The safe installation, removal and exchange of regulators</li><li>• Checking / setting meter regulation using suitable test apparatus</li><li>• Emergency notices and warning labels</li></ul> | <ul style="list-style-type: none"><li>• Sealing of regulators and positioning of emergency control valves</li><li>• Fitting, testing and commissioning of medium pressure regulators and valves (Pressures greater than 75 mbar)</li></ul> |
|--|--|

## Technical Information

|   |   |
|---|---|
| <b>Date Produced:</b>                     | September 2019  |
| <b>Assessment Type:</b>                   | Multi choice questions and practical assessment.  |
| <b>Qualification required to deliver:</b> | Knowledge of all gas procedures and legislation.  |
| <b>Aims:</b>                              | To provide operatives with knowledge and skills relating to the installation and commissioning of medium pressure regulators. |
